SEYCHELLES POSTAL SERVICES LIMITED

REPORT OF THE DIRECTORS FOR THE YEAR ENDED 315T DECEMBER 2015

The Directors have pleasure in presenting their report together with the audited financial statements of the company for the year ended 31st December 2015

Principal activities of the company

The principal activities during the year were that of providing postal services in Seychelles.

Current Year Event

Effective this year, the directors have decided to adopt International Financial Reporting Standards (IFRS) as the basis of preparation of the company's financial statements. Comparative figures of 2013 have been amended to conform with current year's presentation.

Results

Particulars	SR
Profits before tax and adjustments	(4,298,975)
Tax Expense	(290,246)
Profit for the year	(4,589,221)
Retained Earnings Brought Forward	3,351,484
Retained earnings carried forward	(1,237,737)

Property, Plant and Equipment

Additions during the year amounting to SR 722,891 mainly comprised of office equipments and a motor vehicle. There are no disposals during the year.

The Directors are of the opinion that the carrying value of the property and equipment as at December 31, 2015 approximates the fair value at the end of the reporting period.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS

This report is made solely to the members of Seycheiles Postal Services Limited ('the Company'), as a body, in accordance with the Companies Act, 1972. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Report on the Financial Statements

We have audited the financial statements of Seychelles Postal Service Limited set out on pages 5 to 20, which comprise the statements of financial position as at December 31, 2015, statements of profit or loss, statements of other comprehensive income, statements of changes in equity and statements of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Directors' Responsibility for the Financial Statements

As stated on page 2 of the Directors' Report, the Board of Directors are responsible for the preparation of the financial statements:

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control[relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements on pages 5 to 20 give a true and fair view of the financial position of the Company at December 31, 2015, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards and comply with the provisions of the Seychelles Companies Act, 1972.

Report on Other Legal and Regulatory Requirements

Companies Act, 1972

We have no relationship with, or interests in the Company, other than in our capacity as auditors, tax and business advisers and dealings in the ordinary course of business. We have obtained all information and explanations we required.

In our opinion, proper accounting records have been kept by the Company as far as it appears from our examination of those records.

Public Enterprise Monitoring Commission Act, 2013

In our opinion, proper accounting records have been kept by the Company as far as it appears from our examination of those records. We have obtained all the information necessary for the purpose of our audit and are satisfied with the information

1 GENERAL INFORMATION

Seychelles Poetal Services Limited was established in 2023, under the Companies Act 1972 as a corporate body. The registered address of the company is at Liberty House, Victoria, Seychelles. These financial statements will be subcitized for consideration and approval at the forthcoming Board meeting of the Company.

2 SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set cut below. These policies have been consistently applied to all the years presented, unless otherwise stated.

a) Basis of proparation

EFS 1, "First-time adoption of IFRS" has been applied in the preparation of these financial statements. The Company has adopted internetional Financial Reporting Standards for the first time for the year anded December 21, 2014 while proviously the financial statements were prepared under Seychelles GAAP. Where necessary, comparative figures have been amended to conform with the change in presentation in current year. The company's transition data is January 1, 2013. These financial statements are prepared under the bistorical cost convention, except that relevant financial assets and Babilities are carried at amortized costs.

Standards, Amendments to published Standards and Interpretations offective in the reporting period

The following new standards, emendments and interpretations are also effective for the first time in these financial statements period. However, none have a material effect on the company.

Lno	Paticulars Newpor revised prenouncement	Effective Deta and Applicability
1	IFRS 9 Financial Instruments (2014)	Effective for annual periods beginning on or after 1 January 20
	A finalised version of IFRS 9 which contains accounting requirements for financia	
	Instruments, replacing IAS 39 Financial Instruments: Recognition and Measurement, Th	
	standard contains requirements in the following areas:	
	Classification and measurement. Financial assets are classified by reference to the	
	business model within which they are held and their contractual cash flow characteristics	
	The 2014 version of IFRS 9 introduces a Yair value through other comprehensive income	
		T .
	category for certain debt instruments. Financial liabilities are classified in a simila	•
	manner to under IAS 39, however there are differences in the requirements applying to	9
	the measurement of an entity's own credit risk.	
	impairment. The 2014 version of IFRS 9 introduces an 'expected credit loss' model for the	
	measurement of the impairment of financial assets, so it is no longer necessary for a	
	credit event to have occurred before a credit loss is recognised	Company's financial statements
	Hedge accounting, introduces a new hedge accounting model that is designed to be more	
	closely aligned with how entities undertake risk management activities when hedging	
	financial and non-financial risk exposures	
	Derecognition. The requirements for the derecognition of financial assets and liabilities	;
	are certied forward from IAS 19.	
	Note: Depending on the chosen approach to applying IFRS 9, the transition can involve	
- 1

	The liability is recognised progressively if the obligating event occurs over a period of time	
7	if an obligation is triggered on reaching a minimum threshold, the liability is recognised	

Certain standards, amendments to published standards and interpretations have been issued that are mandatory for accounting periods beginning on or after January 1,2015 or tater periods, but which the Company has not early adopted.

Where relevant, the Company is still evaluating the effect of these Standards, Amendments to published Standards and Interpretations issued but not yet effective, on the presentation of its financial statements.

The preparation of financial statements in conformity with international Financial Reporting Standards (IFRS) requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgmenent or complainty, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 4

b) Property and Equipment

Items of property and equipment are stated at the lower of historical cost or recoverable amount, and are depreciated using the straight line method over their estimated useful lives.

The rates of depreciation used are based on the following useful lives:

Building - 25 years
Office Equipments - 5 years
Furniture and Fittings - 5 years
Operating Equipments - 5 years
Vehicles - 5 years

Assets are depreciated or amortised from the date of acquisition or, in respect of internally constructed assets, from the time an asset is completed and put to use.

Expenditure on repairs or maintenance of property and operating equipment made to restore or maintain future economic benefits expected from the assets is recognised as an expense when incurred. Gains and losses on disposal of equipment are determined by comparing proceeds with carrying amount and are included in profit or loss.

c) Financial Instruments

Financial assets and liabilities are recognised on the Company's statement of financial position when the Company has become a party to the contractual provisions of the instrument. The company's accounting poticies in respect of the main financial instruments are set out below.

(I) Other receivables

Other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method less provision for impairment. A provision for impairment of other receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of provision is recognised in statement of profit or ioss.

(II) Cash and cash equivalents

Cash and cash equivatents include cash in hand and at bank, deposits with one year maturity

(III) Other payables

Other payables are stated at fair vatue and subsequently measured at amortised cost using the affective interest method

(iv) Share capital

Ordinary shares are classified as equity

d) Retirement benefit obligations

Defined benefit plans

The Company provides for payment of compensation to permanent emptoyees for continuous service. The amount provisioned every year is based on the number of years the employee has worked after the last payment date. This type of employee benefit has the characteristics of a defined benefit plan. The liability recognised in the statement of financial position in respect of the defined benefit plan is the present value of the defined obtigation at the reporting date less fair value of plan assets together with adjustments for unrecognised actuarial gains and losses and past service costs. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the retated pension liability. The Company does not do any actuarial valuation since the Directors have based themselves on the method as prescribed by the Employment Act and they have estimated that the amount of liability provided will not be materially different had it been computed by an external Actuary.

e) Taxation

Tax is recognised in profit and is calculated as laid down by the Business Tax Act 2009

f) Foreign currencies

Functional and presentation currency items included in the financial statements are measured using Seychelles Rupee, the currency of the primary economic environment in which the entity operates ("functional currency"). The financial statements of the Company are presented in Seychelles Rupee, which is the Company's functional and presentation currency.

Transactions and balances

Foreign currency transactions are transtated into the functional currency using the exchange rates prevailing on the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabitities denominated in foreign currencies are recognised in the statement of profit or loss and other comprehensive income. Non-monetary items that are measured at historical cost in a foreign currency are transtated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are transtated using the exchange rates at the date the fair value was determined.

g) Inventories

Inventory is carried at the lower of cost or net realisable value. Cost is based on the first-in, first-out principle and includes expenditure incurred in acquiring the inventories and bringing them to their existing condition and location. Net realisable value is the estimated selling price the inventory would fetch in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

In the case of stamps, inventory is carried at the cost price which includes cost of printing, transportation, delivery and related costs.

h) Revenue recognition

In relation to sale of goods, revenue is recognised where the ownership has been transferred to the buyer and no significant uncertainties remain regarding the derivation of consideration, associated costs or the possible return of goods.

In relation to rendering services, revenue is recognised by reference to the state of completion of the transaction at the Statement of Financial Position date.

i) Impairment of assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separatety identifiable cash flows (cash generating units)

J) Provisions

Provisions are recognised when the Company has a present or constructive obligation as a result of past events; it is probable that an outflow of resources that can be reliably estimated will be required to settle the obligation.

3.1 Financial Risk Factors

The Company's activities expose it to a variety of financial risks: market risk (inluding currency risk and fair value interest risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effect of it's financial performance. A description of the significant risk factors is given below together with the risk management policies applicable.

Market risk

Currency risk

As at December 31, 2015, the Company's receivables and cash and cash equivatents include an amount of GBP 278,955 as foreign currency exposure. There were no major movements / fluctutions in the currency compared to SR and avarage conversion rate during the year was at 1GBP = SR 19.6458 and the closing rate at 1GBP = SR 19.6458.

li Cash flow and fair value Interest rate risk

The Company's income and operating cash flows are exposed to interest rate risk as it sometimes deposits surplus cash at short term rates. The Company does not have any other significant interest-bearing assets and consequently its income and operating cash flows are substantially independent of changes in market

b Credit risk

The Company is presently not exposed to credit risk since majority of its trade receivables is receivable from international Post Offices which are routed through the Universal Postal Union billing system during the reporting period.

c Liquidity risk

Prudent Liquidity risk management implies maintaining sufficient cash and availability of funding through an adequate amount of committed credit facilities. Furthermore, management monitors rolling forecasts of the Company's liquidity reserve on the basis of expected cash flows. The Company's financial assets and liabitities mature in less than one year.

3.2 Fair Value Estimation

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Company for similar financial instruments.

3.3 Capital Risk Management

The Company's objectives when managing capital are:

To safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders; and to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk. At December 31, 2014, the Company was debt free.

CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgments are continuously evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

a) Functional currency

The choice of the functional currency of the Company has been based on factors such as the primary economic environment in which the entity operates, the currency that mainly influences sales prices for goods and services, cost of providing goods and services and labour costs. The functional currency has been assumed by the Directors to be the Seychelles Rupee.

b) Retirement benefit obligations

The cost of defined benefit pension plans has been determined using the method as per the Employment Act and the Directors have estimated that the amount of liability provided will not be materially different had it been computed by an external Actuary.

The company commenced operations as from the 1st of June 2011. There was no financial consideration paid for the takeover of the independent postal services entity. There was an amount shown as capital reserve in the Statement of Financial Position of the independent postal services entity on the takeover date. This represents the difference between the assets and liabilities taken over from the Ministry of Finance on the 1st of January 2011. This amount was taken over by the company and shown as capital reserve. Refer Note No: 14
